

Special offers

Attention! Changes in conditions and fares for bicycle transport from 1 March 2024!

In accordance with the national tariff reform (detailed information: www.ujtarifa.hu/en) [1], rules and tariffs for bicycle transport also changed. The most important changes and details of these new regulations are available on our [Important information, ticket prices](#) [2] page.

Zemplén mountains

The Zemplén with its lesser-known, but excellent cycling routes has expanded its cycling transport options. One part of the Hernád-Zemplén InterCity train (**Zemplén IC**) which runs in every two hours from Budapest-Keleti via Miskolc to **Szerencs, Sárospatak and Sátoraljaújhely offers 16 bicycle spaces**. This will also make it possible to explore the cycle paths built in Tokaj-Hegyalja and Hegyköz - the latter following the route of the former Hegyköz railway. The other part of the train (**Hernád IC**) **runs along the Hernád Valley**, from where you can discover famous sights and villages on two wheels such as Boldogkő or Regéc castle, Vizsoly or Gönc. You can also explore the Hollóház porcelain factory and the castle of Füzér, or the Telki mine (famous for its medieval gold mines) and then reach Sátoraljaújhely. **You can take your bicycle by train internationally to Košice (6 seats)** from where you can explore the more remote parts of Slovakia.

Dunakanyar (Danube Bend) and Börzsöny

The **Dunakanyar** is conveniently accessible by **Z70 trains** (mostly operated by double-decker KISS motor trains) departing hourly from **Nyugati** station. These trains can carry 12 bicycles. From 15 March onwards additional fast trains will be added in the weekends.

Passenger trains to Vác will run every hour from Fót, Veresegyház and Órbottyán and every two hours from Aszód - the latter service will also provide access from the east (Eger, Hatvan), where you can transfer to the Danube Bend.

From **Vác** it is easy to reach **East-Börzsöny** with excellent cycling routes to the mountains and around the Ipoly valley. From mid-March most of our **S750 passenger trains** to Diósjenő-Drégelypalánk will run with 16 bicycle coaches per weekend.

Cycling around Lake Balaton

The **two-hourly trains** from Budapest via Balatonfüred to **Tapolca** already run in spring with **large capacity of bicycle transport carriages**. **Balaton- and Tópart IC trains** to the southern shore of **Lake Balaton** can carry **8-8 bicycles** until the start of the spring season.

From 15 March, a **direct Lesence train** will **also run from Szombathely via Tapolca to Keszthely at weekends**, carrying 16 bicycles.

Please note that on some trains you can **travel only with a bicycle space reservation**. This is **particularly important in the Lake Balaton area, due to a high volume of cyclist traffic from spring to autumn**. We recommend our passengers to buy their bicycle tickets and bicycle space reservations in advance.

Bicycle transport on long-distance (InterCity) services

On our InterCity trains between Budapest and most of our cities bicycle transportation is available during the whole year partly in [IC+](#) [3] coaches.

Combined travel

Combined travel is available in all seasons. The easiest and quickest way to reach railway stations in all seasons is by bicycle. At our [metropolitan rail line](#) [4]s **covered bicycle storage facilities protected by surveillance** are available for all passengers to continue their journey by train.

Bicycle transport abroad

From December 2023, passengers will can take their bicycles to **Košice** on our **Hernád InterCity** trains departing in every 2 hours **from Budapest-Keleti**. Bicycles can be carried also on passenger trains between Szeged and Subotica.

Hungarian Cycling Club and START Klub card

For members of **Hungarian Cycling Club** and our **START Klub card** holders discount bicycle tickets are available at a discount price **375 HUF**. In addition our [START](#) [5] [Klub card](#) [5] holders can carry their bicycles free of

charge on [Saturdays](#) [6] throughout the whole country.

Bicycle country pass

For regular cyclists it is worth to buy a Cycle Country Pass what allows free travel throughout the whole country as it is **valid on the entire network of MÁV-HÉV and on certain BKK services in addition to MÁV-START (including the Szeged-Hódmezővásárhely TramTrain) and GYSEV services**. Its price is **4950 HUF** and valid for **30 days**. For applicable trains a bicycle space reservation must also be purchased in addition to the bicycle country pass.
